

Paul Squires

Paul is a Chartered IT Professional and leads the Itica Technical Consultancy Practice.

Paul has a board range of technical IT skills which he uses to help clients with wide ranging business issues covering voice services, data networking, data management and desktop applications.

Experience

Paul graduated from University of Hertfordshire in 1994 with 1st class honours in Computer Science, a sandwich course with a year spent in industry at The Open University producing courseware for various disciplines.

Paul has worked for 15 years in a variety of technical roles covering 2nd and 3rd line support for a wide range of technologies. He progressed to a management role and started a new IT support centre which was combined with a new Data suite and successfully oversaw the amalgamation of IT infrastructure through two successive mergers.

Paul is an active member of BCS The Chartered Institute for IT, being on the committee of the Northampton branch and takes every opportunity to further his technical knowledge and skills. He has a keen focus on ensuring that the transition from old to new technology platforms is accomplished to successfully deliver real business benefit.

Itica assignments have included:

- > Parking Services Group - Delivered operational cost savings by designing and implementing Internet VPN for site to site connectivity to replace previous dial-up and leased line connection of branch offices to the clients headquarters.
- > Business Risk Consultancy - Lead Technical Architect for an IP PBX / Unified Communications project, assisting the client to procure a correct fit solution from the best supplier.

Expertise

- > Virtualisation
- > Database management
- > Network architecture
- > IP Telephony
- > Technology migration
